

Amendments to the Specification

Please amend paragraph [0090] as follows:

[0090] In manufactured products according to the invention, the additive powder and adhesive binder, as described above, are combined with composite reinforcement materials and components such as glass rovings, yarns, veils, cloths, surfacing mattes, non-woven fabric, woven fabrics, knitted fabrics, all glass fabrics, all carbon fabrics, Kevlar KEVLAR® (poly-paraphenylene terephthalamide) fabrics, ceramic fabrics, Nomex NOMEX® (meta-aramid, poly(meta-phenyleneisophthalamide)), fabrics, basalt fabrics, and air texturized fabrics, generally "fabrics."

Please amend paragraph [0127] as follows:

[0127] The cloth can comprise glass, carbon, Kevlar KEVLAR® (poly-paraphenylene terephthalamide), ceramic, Nomex NOMEX® (meta-aramid, poly(meta-phenyleneisophthalamide)), basalt, or other commercially available synthetic material such as polyester, Dacron DACRON® poly(ethylene terephthalate), acrylic or any other man made fabric material, or mixtures thereof which can be assembled in some fashion into a cloth or fabric material.
